

## SECTIONAL POINT REPAIR EQUIPMENT AND SUPPLIES

Featuring:

**PRIMELINER™ Silicate Resin**

### **PrimeLiner Point Repairs allow you to repair almost any pipe without excavating!**

PrimeLiner Point Repairs are fast, economical and require little training. If you are looking to stop Inflow and Infiltration and want to structurally repair the pipe, this is often the best solution!

Our standard kits provide pre-measured Silicate Resin (components A & B), pre-cut fiberglass with Trevara felt backing (enough for 2 layers for all kits over 6' diameter) and supplies for doing the repair. Custom size repair kits are available and can usually be shipped within 2 days of your order.

#### **PrimeLiner Point Repairs:**

- Provide a water tight seal
- Provide structural integrity to damaged pipe
- Fast Cure times (typical repair time is 2 – 2 1/2 hours)
- Meets or exceeds ASTM Specifications.

PrimeLine Trenchless is a full-service distributor of products related to the collection system maintenance and rehabilitation industry. Specializing in trenchless technologies. We sell Pipeline Plugs, Chemical Grouts, Manhole Rehabilitation Products, as well as Cured in Place Lining Materials and Equipment.

We offer classroom and onsite training on all of our product lines! Call us today for a quote!

**PrimeLine Trenchless**, the manufacturer and distributor of PrimeLiner™ products, offers equipment, supplies and training for anyone looking to do Sectional Lining or CIPP Point Repairs. We offer no hassle, pre-measured kits and also offer you materials in bulk providing tremendous savings for heavy users.

Our engineered approach to sectional lining utilizes PrimeLiner™ Silicate Resins, a fiberglass liner material with Travera felt scrim along with carrier packers of different diameters and lengths. Custom kits and packers are available.

This repair technique is a proven methodology that has been used for many years worldwide, exceeds all applicable specifications and is approved by NASSCO. Please also note that PrimeLine Products, Inc. also sells PrimLiner Epoxy Resin, UV resins, lining materials and the necessary equipment for lateral lining and manhole to manhole lining.
